Education

Graphic Era Hill University, Dehradun

Aug 2023 { Present

B.Tech in Computer Science and Engineering

Profile

- Computer Science undergraduate passionate about Artificial Intelligence, technology content, community engagement, and digital growth. Experienced in building technical projects and communicating technology concepts through project showcases and professional networking platforms.

Projects

Technical Content and Personal Branding

- Create and share content related to Artificial Intelligence, software development, and technology trends.
- Showcase projects and simplify technical concepts through professional networking platforms.

DevChat – Real-Time Messaging Platform

- Developed a real-time messaging platform using Node.js, Express.js, MongoDB, and Socket.IO.
- Designed an event-driven architecture supporting 100+ concurrent users.
- Reduced message latency by approximately 40% through backend optimization.
- Implemented secure authentication and role-based access control.

DPI Engine – Deep Packet Inspection System

- Built a multi-threaded Deep Packet Inspection (DPI) engine in C++.
- Parsed protocols including Ethernet, IPv4, TCP, UDP, TLS, and DNS.
- Implemented traffic identification through TLS SNI extraction.
- Designed flow tracking and rule-based traffic filtering mechanisms.

Technical Skills

- **Languages:** C++, Java, Python, JavaScript, SQL
- **Backend:** Node.js, Express.js, REST APIs, Microservices Architecture
- **Core Competencies:** System Design, API Optimization, Scalability, Concurrency, OOPS, Data Structures, DBMS
- **Content and Growth:** Content Creation, Community Engagement, Personal Branding, Trend Research
- **Tools:** Canva, ChatGPT, Google Workspace, Microsoft Office

Relevant Coursework

- Data Structures and Algorithms, Operating Systems, Database Management Systems, Computer Networks, Web Technologies, System Design Principles

Achievements and Certifications

- Solved 500+ Data Structures and Algorithms problems on LeetCode and CodeStudio, specializing in optimization challenges.
- Achieved 5-Star rating in C++ on CodeStudio through consistent problem-solving and algorithmic excellence.
- Completed Oracle Cloud Infrastructure (OCI) AI Foundations Certification.
- Actively exploring AI, digital content creation, and audience engagement through hands-on projects and online content sharing.
